THE RED CHAIR PROJECT INFORMATION

WHEN: Friday, July 8, 2022

WHERE: Outdoors at the Rosthern Farmers Market/Main Street

ABOUT THE PROJECT:

The Red Chair Project was created as a way to bring people together through art creation, raise arts awareness and celebrate diversity in our area. It is intended to be representative of the communities we serve - through the artists we select and the subjects they paint. The goal is to give artists a chance to work, have fun and be challenged while engaging the community as a whole. This is to be an inclusive group portrait that will be exhibited in a public space in Rosthern for all to enjoy. These portraits highlight unique individuals in our area and how they contribute to the richness of our collective community experience.

HOW THIS PROJECT WILL WORK:

The Station Arts will contract a total of 10 local artists to paint portraits of sitters from this community in a live setting. Artists must complete three portraits within three, one-hour time slots. These portraits will become a

part of a larger mural to be displayed as a whole or in clusters in public spaces in town and online during the month of September 2022.
